

### **Procurement with AC Atel Germany**

The Procurement Service of AC Atel is providing you since 1989 with active, passive and electro-mechanical components according to your demands.

### **Global Sourcing**

Our worldwide network of established partners allows us to leverage market benefits, price advantages and short leadtimes for your convenience. With only one local partner you can cover your worldwide demands.

### **Independent Sales Rep.**

As ISR for AmeTronics we can provide equivalent products for obsolete and running of ABB, EUPEC, Ixys, Mitsubishi, Dynex, AEG, Westcode for

**•GTO Thyristors, SCRs, Diodes, IGBT Modules, IGCTs, MOSFET, Gate Drives, Voltage & Current Sensors**

### **Distribution**

As official Distributor of Rectron we can provide

**•Diodes, Transistors, Rectifiers**

### **Assured quality for EOL and open market components**

The open market is full of risk, therefore it is absolutely necessary to have the parts tested. We provide this Service with our cooperation partner CECC lab.

The standard procedure contains

- DECAP**
- Optical test (Acetone & surface)**
- Key Function Test acc. datasheet**
- solderability**

The parts come to you completely checked and you can start your production without any sorrow.
